

Installing your Satellite Terminal

All HughesNet Business Solutions service plans include equipment and a professional installation plan designed for commercial business locations, such as office buildings, strip malls, gas stations, restaurants, and warehouses.

Hughes offers two types of professional installation packages—Commercial and Enterprise. Both packages include certain items as standard and that are listed below.

Included with Professional Installation

- 25' of soft ground cable trenching. Note: Conduit not included.
- Up to 150' of dual RG-6 cable from antenna to either PC or router
- Antenna system grounding up to 35'
- Connection to a single device, either PC or router

Antenna Mount Options (Determined by Installer)

- Outside wall mount or roof mount, or
- Non-penetrating roof mount, or
- 6' in-ground pole mount

In certain instances it may be necessary to do more than what is covered in the standard installation plan in order to ensure a proper installation. In these cases, additional installation fees can incur. However, to avoid the possibility of running up multiple additional charges,

Hughes offers the Enterprise installation package for an additional \$200 over the standard Commercial plan. See table below for a comparison of the plans as they pertain to possible installation extras:

Professional Installation	Commercial	Enterprise
Standard equipment and installation (.98m antenna/2W radio)	\$699.00	\$899.00
Installation Extras If Needed*		
Tall out-of-ground pole 7'–10'	\$430.00	Included
RG6 cable, non-plenum above 150' to 300'	\$0.75/ft	Included
RG6 cable plenum up to 150' only where required	\$2.00/ft	Included
Ground wire above 35' up to 100'	\$1.50/ft	Included
Cable wire mold if required	\$4.30/ft	Included
Core drilling through masonry or concrete walls up to 2 walls	\$75.00/ea	Included
Cable Trenching above 35' up to 100'	\$4.30/ft	Included
Power Strips/Surge Suppressors	\$30.00/ea	Included

* List of possible installation extras is not comprehensive. For a complete description of what is and is not included in the Commercial and Enterprise installation packages, go to legal.hughesnet.com.

Depending upon your location, the Enterprise plan may be a better choice for a more worry-free installation. Find out why Hughes has deployed over a quarter of a million enterprise installations and how these businesses are enjoying the benefits of HughesNet. Put the power of broadband in your business.
