

Save money and speed up credit card transactions today

Staying connected to your business and serving your customers better is now easier—and more affordable—than ever. That's because the leaders in satellite broadband access and payment processing solutions, Hughes and Chase Paymentech, have teamed up to bring you HughesNet Business Internet with Merchant Services—all the speed, access, and security you need at a price you simply can't beat.

When you sign up for HughesNet Business Internet with Merchant Services, you're eligible for an exclusive merchant services offer from Chase Paymentech, the trusted leader in credit card processing. HughesNet Business Internet with Merchant Services comprises any of the HughesNet Business Internet plans¹—you just select the speed you need—along with Chase Paymentech's credit card processing services.

Cost-effective connectivity you can count on

As a Hughes/Chase Paymentech customer you'll enjoy benefits including:

- Faster credit/debit card transactions and Internet/email speeds for happier customers and increased productivity
- Easier ways to accept and process customer payments—including credit/debit cards, electronic checks, EBT, and customizable gift cards
- Lower rates for preferred business customers like you, which could dramatically reduce your processing fees
- Greater efficiency through the elimination of multiple phone lines and online reporting to track transactions whenever and wherever you like
- Nationwide coverage providing broadband access no matter where in the US your business locations are—even where DSL and cable are not available
- Better security with an encrypted, plug-and-play, point-of-sale (POS) payment device²
- Cash back from Chase Paymentech up to \$600³
- 24/7 technical support from dedicated experts and account management teams
- Professional installation, consultation, and support from trained business specialists

HughesNet Business Internet with Merchant Services requires a certified POS device. This device provides state-of-the-art IP encryption designed to make it easy to process your customers' credit cards with the utmost in security. Using the certified POS device can help you get your business one step closer to meeting recent credit card security standards such as the PCI-Data Security Standard (PCI-DSS).

HughesNet 

HughesNet encompasses all broadband solutions and managed services from HUGHES for large enterprises, governments, small businesses, and consumers, bridging the best of satellite and terrestrial technologies. HughesNet solutions and services are marketed directly by Hughes and its authorized resellers and distributors throughout North America, Europe, India, and Brazil. In all

other regions of the world, Hughes products and services are available from a growing family of value-added service providers and resellers. Hughes satellite products are based on global standards approved by the TIA, ETSI, and ITU standards organizations, including IPoS/DVB-S2, RSM-A, and GMR-1.

The Benefits of a Certified POS Device

- High-performance countertop design
- Plug-and-Play—IP enabled with Ethernet connection
- State-of-the art data encryption for high security
- Supports all your credit, debit, and gift card needs
- Highly readable white backlit display

Take advantage of high-speed access available nationwide from the leader in satellite broadband—Hughes. Enjoy state-of-the art credit card processing from the market leader—Chase Paymentech—and help protect your customers' credit card transactions with certified POS devices. This is a combination for business that just cannot be beat.

HughesNet Business Internet with Merchant Services has so many advantages, it's no wonder so many businesses nationwide rely on Hughes and Chase Paymentech to get the job done.

Device must be purchased from Chase Paymentech and may be different than shown in picture.

For more information, contact Hughes at 1-877-337-3880 or visit business.hughesnet.com.

1. Merchant must subscribe to a HughesNet Business Internet service plan (BI-100, BI-200, BI-300, BI-400, BI-500, BI-600, or BI-700) to qualify. Offer applies only to new activations purchased coincident with Chase Paymentech merchant services. Activation of HughesNet service and subscription to Chase Paymentech merchant services must occur within 60 days of each other to qualify. Chase Paymentech is solely responsible for verifying end-customer qualification for offer, and for paying any service credits associated with offer.
2. HughesNet Business Internet with Merchant Services requires the merchant to purchase a certified POS device from Chase Paymentech.
3. \$600 credit paid by Chase Paymentech and applied equally to your 13th and 25th month's processing statement. All merchants subject to credit approval by Chase Paymentech. Upon approval, all merchants must execute a Merchant Processing Agreement.
